

MountainHER:

Empowering women associations as drivers for agroecological transformation to generate income for Mountain farming communities

WP 5: Food business for radical transformation and employment generation

WP lead: PINS

WP co-lead: INRA-T

July 18th 2022 – Kick off meeting

Objectives

ID	Description
O5.1	Ensure the ability of cooperatives to effectively produce traditional food and malt products
O5.2	Define malting strategies to maximize income
O5.3	Determine dietary and nutritional benefits of traditional food and malt products

Tasks

ID	Lead	Description
T5.1	INRAT	Training and equipment for producing traditional foods
T5.2	(Birrificio Emiliano)	Malting and brewing of barley and durum wheat grains for raising rural profits
T5.3	PINS	Dietary and nutritional evaluation of malt and food products to gain consumers interests

Deliverables and Milestones

ID	Due	Lead	Description
D5.1.1	M9, 21, 30	INRAT	Define and distribute best smallscale equipment to cooperatives
D5.2.1	M25, 36	Birrificio Emiliano	Determine flavor mixtures and malt performances of cultivars and practices
D5.3.1	M20, 30	PINS	List the dietary and nutritional value of traditional food and malt products for inclusion in the label

ID	Due	Lead	Description
MS07	M36	PINS	Dietary values of produced foods

Interactions

From	Due	What do you need?
WP2	M3	Delivered cultivar from ancient grains
WP3	M3	Instructions about practices that should be used on farms
W6	M11	Established virtual platform for gathering consumers appreciation
W7	M18	Digital image of the cooperatives is revamped

To	Due	What do you give?
WP6	M24	Food products for physical and digital retail
WP7	M18	Inputs for communication channels

WP partners

Participant N°	1	2	3	4	5	6	7	8	9
Short name of participant	INRA	ICARDA	LARI	INRA-T	ITGC	PINS	OxFam	Open Fields	Birr. Emiliano
Person months	7.5	1.0	9.0	9.0	9.0	10.0	5.5	9.0	10.0
Start month		1			End month			36	

Short term plan

Month	Activity, deliverables, communication, and milestones
M1 (July)	Start analyzing models of small-scale mills for buying
M2 (August)	Start preparing a training program how to best mill and conserve the grains and resulting flours
M3 (September)	
M4 (October)	
M5 (November)	
M6 (December)	

Open issues

- *Issue 1: Will a training program how to best mill and conserve the grains and resulting flours be applicable to all project partners reflecting on differences in climate conditions?*
- *Issue 2: Appoitment of task leads*
