

Highlands of Ethiopia grazing exclosure research assessment guide:
Questionnaire for communities and community institutions
Jason Sircely and Elias Zerfu

A. Option and context: Exclosure enhancement

What technical management is used commonly in grazing exclosures? (such as enrichment planting, managed natural regeneration, soil and water conservation measures, gully rehabilitation)
What community arrangements regulate exclosure use? (such as rules, enforcement)
Who is involved in implementing exclosure management, and what are their roles?
Do opinions or views on exclosure management differ among exclosure users? How/why?
Are there any new ideas for improving management of exclosures? What benefits would they provide, and what challenges would they face?

B. Narrative commentary and notes

A large, empty rectangular box with a thin black border, intended for narrative commentary and notes. It occupies the majority of the page's vertical space below the section header.
