

## International SWAT Conferences

## General Description

- Continuous Time  
Daily Time Step  
One Day —> Hundreds of Years
- Distributed Parameter  
Unlimited Number of Subwatersheds
- Comprehensive – Process Interactions
- Simulate Management

## Example Configuration

- Cells/Subwatersheds
- Hydrologic Response Units
- Output from other Models
- Point Sources - Treatment Plants

## SWAT Watershed System

## Subbasins and Streams

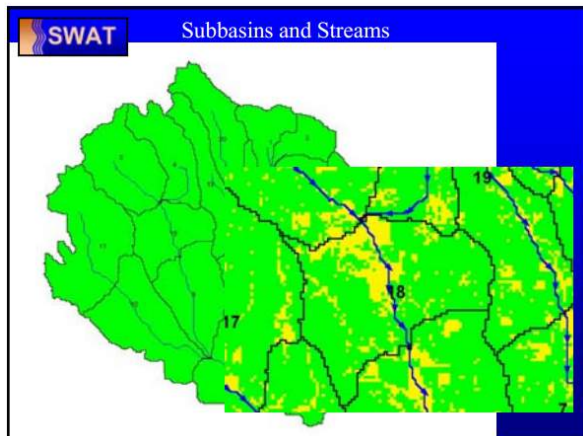

## Subbasins and Streams

## Subbasins and Streams

- HRU's
- 28% Range-Sandy
  - 51% Pasture - Silt
  - 16% Forest - Sandy
  - 4% - Agriculture - Silt

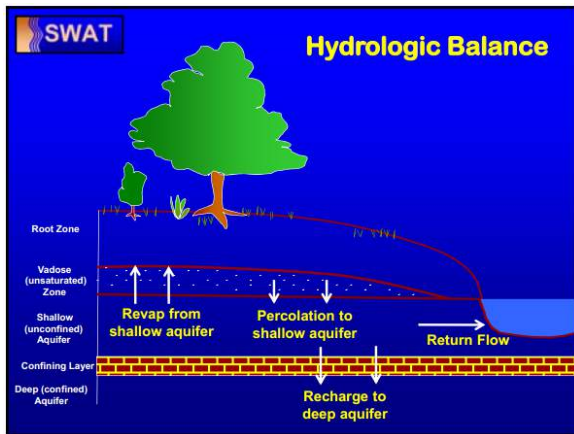

- SWAT** **Upland Processes**
- Weather
  - Hydrology
  - Sedimentation
  - Plant Growth
  - Nutrient Cycling
  - Pesticide Dynamics
  - Management
  - Bacteria

- SWAT** **Climate**
- **Weather**
    - Precipitation
    - Air Temperature and Solar Radiation
    - Wind Speed
    - Relative Humidity
  - **Snow**
    - Snow Cover
    - Snow Melt
    - Elevation Bands
  - **Soil Temperature**

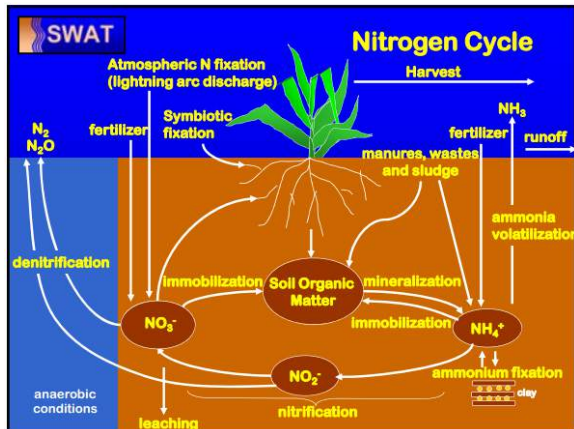

- SWAT** **Hydrology**
- **Canopy Storage**
  - **Infiltration**
  - **Redistribution**
  - **Evapotranspiration**
  - **Lateral Subsurface Flow**
  - **Surface Runoff**
    - Surface runoff volume
    - Peak runoff
  - **Ponds**
  - **Tributary Channels**
    - Transmission Losses

- SWAT Management**
- Crop Rotations
  - Removal of Biomass as Harvest/  
Conversion of Biomass to Residue
  - Tillage / Biomixing of Soil
  - Fertilizer Applications
  - Grazing
  - Pesticide Applications

- SWAT Management**
- Irrigation
  - Subsurface (Tile) Drainage
  - Water Impoundment (e.g. Rice)

- SWAT Management**
- Urban Areas
    - Pervious/Impervious Areas
    - Street Sweeping
    - Lawn Chemicals
  - Edge of Field Buffers

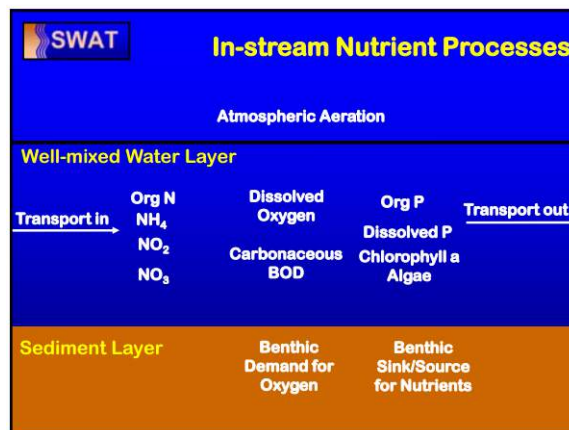

**SWAT** **Channel Processes**

- **Flood Routing**  
Variable Storage  
Muskingum
- **Transmission Losses, Evaporation**
- **Sediment Routing**  
Degradation and deposition  
computed simultaneously

**SWAT** **Channel Processes**

- **Nutrients**  
modified QUAL2E/WASP
- **Pesticide**  
Toxic balance developed at  
University of Colorado

**SWAT** **Impoundments**

- **Water Balance**  
Inflow  
Evaporation  
Seepage  
Withdrawals  
Outflow  
Spillway Control  
Target Volume Approach  
Missouri River Reservoir Operation

## Impoundments

- **Nutrient Balance**  
Well-mixed System  
Nitrogen & Phosphorus Loss Rates  
2 Settling Periods per Year
- **Pesticide Balance**  
Well-mixed System  
Toxic balance developed at  
University of Colorado

## User Options

- **PET:**  
Penman-Monteith, Priestly-Taylor, or  
Hargreaves
- **Runoff:**  
Curve Number or Green & Ampt
- **Channel Flow:**  
Variable Storage Coefficient or Muskingham-  
Cunge
- **Channel Water Quality:**  
QUAL2E On-Off Switch

## More User Options

- **ARC GIS 10.x**
- **Map Windows (Public Domain GIS)**
- **SWAT-CUP (Calibration and Uncertainty Program)**
- **VIZSWAT (Output Visualization)**
- **Manuals in English, Spanish, Chinese, Korean**
- **SWAT 2003, 2005, 2009, 2012, (2015)**

## SWAT Strengths

### Upland Processes

- **Comprehensive Hydrologic Balance**
- **Physically-Based Inputs**
- **Plant Growth – Rotations, Crop Yields**
- **Nutrient Cycling in Soil**
- **Land Management - BMP**  
Tillage, Irrigation, Fertilizer, Pesticides,  
Grazing, Rotations, Subsurface Drainage,  
Urban-Lawn Chemicals, Street Sweeping

## SWAT Strengths

### Channel Processes

- **Flexible Watershed Configuration**
- **Water Transfer—Irrigation Diversions**
- **Sediment Deposition/Scour**
- **Nutrient/Pesticide Transport**
- **Pond, Wetland and Reservoir Impacts**

## Collaborators

USDA  
Agricultural Research  
Service

Texas A&M  
University

USDA  
Natural Resources  
Conservation Service

EPA  
Office of Science  
and Technology

NOAA

Universities

## Conclusions

- A product to over 45 years to USDA Texas A&M model development
- Widely used for water quality, water supply, and climate change, carbon sequestration, and agricultural production assessments worldwide
- Over 1500 TAW2 users and 30 active developers worldwide; more than 200 graduate students engaged in research; peer reviewed papers

## The End

<http://swatmodel.tamu.edu>
