Strengthening Knowledge Management for Greater Development Effectiveness in the Near East, North Africa, Central Asia and Europe (SKiM) Project Overview

#### Dr. Akmal Akramkhanov, ICARDA a.akramkhanov@cgiar.org

Strengthening Knowledge Management for Greater Development Effectiveness in the Near East, North Africa, Central Asia and Europe 22 October 2019, Khartoum, Moldova

#### Why Knowledge Management?

- Improve development •
  - ✓ to better inform (policy/decision makers, producers, farmers, households etc.)
  - $\checkmark$  to be better informed ourselves (within organization, other organizations, our target communities)
- Learn and adapt to changing environment • / i.e. climate change, migration etc.

#### What is Knowledge Management?

## Systematic approach to:

- Creation/generation
- Capture
- Storage
- Retrieval
- Enhancement
- Dissemination

 Strengthening
 country-level knowledge and uptake of effective
 approaches for agriculture
 and rural development

### IFAD Sudan Country Programme Knowledge Management Strategy

3) Strengthening institutional capacity to embed KM in work processes and institutional culture 2) Contributing to partnerships for KM and learning to strengthen national policies for improved livelihoods of rural communities

Source: IFAD Sudan country program KM strategy 2017

# Focus countries

- Moldova
- Morocco
- Sudan
- (+2 from year 2)

- Assess capacity and enhance knowledge management skills of key rural development institutions and other stakeholders in Moldova, Morocco, Sudan;
- Foster and promote knowledge exchange within countries, across countries and between regions to foster knowledge uptake, transfer and management.

#### **Thematic areas**

i. Financial inclusion of rural women and youth

ii. Natural resourcemanagement andclimateresilience

iii. Productive agricultural technologies (e.g. water management technologies, conservation agriculture, drought-resilient crops)

Traditional Irrigation ET-based Irrigation

#### **Project components and activities**

- Component 1: KM capacity assessment for enhanced formulation of learning needs
- Activity 1.1: Assessment of knowledge management capacity gaps and learning needs
- Activity 1.2: Formulation of Approach Paper on knowledge management and communication strategy
- Activity 1.3: Formulation of capacity development and innovation plans for the target countries
- Activity 1.4: Regional workshop to kick-start implementation plans and Community of Practice establishment
- Component 2: Capacity development and knowledge systematization
- Activity 2.1: Delivery of on-demand training courses
- Activity 2.2: Organization of 'learning routes'
- Component 3: Enhanced regional knowledge exchange
- Activity 3.1: Set-up and regular maintenance of online portal that builds upon previous tools and capacities
- Activity 3.2: Roll-out of five knowledge symposia
- Activity 3.3: Development and dissemination of knowledge products

#### **Project chart**

#### **Project organization**

#### **Project stakeholders**

#### Selection criteria

- Public
- Research or applied science
- Academic (university)
- Involved in IFAD or international projects
- Aims rural development
- Aims natural resource management
- Aims agriculture production

- Commitment and management support
- Future value
- Existing KM function (unit/processes)
- Previous experience with implementing partners (ICARDA, CIHEAM, VT, Procasur)
- Ability to mobilize other national partners

#### **Project stakeholders**

Moldova	Morocco	Sudan

- What information, knowledge, methodology, or policy-related gaps inhibit agricultural and rural development?
- Which are key capacities required for KM system within institutions?
- What capacities exist, and which ones need to be developed for KM system?
- Key actors in the development of these capacities?
- What products KM plan should include?
- What communication materials are needed?

ARC SUDAN	Exclusion of CBOs CSOs from policy shaping	Learn from scenarios in Moldova.
	Lack of awareness and conflicting policies in Sudan	Conduct awareness WS with different stakeholders involved. Include CBOs and CSOs in these sessions.
	Previous projects from NGOs did not address the core problem of KM	Address the main problems on policy level.
	Project management and M&E skills are not fully utilized	Enhance and build up on these skills and enhance monitoring practices.
	No KM platform or M&E platform in place	Setting up KM plan and implement institutional KM processes
	Not active in enough in partnerships and networks	

SKS	Policies, coordination challenges and cultural reasons prevent SKS from working efficiently	Might be training provider for KM Enhancing negotiation, partnership skills to moderate and ease these difficulties
	No portal for KS	Implement KS portal/system. Join/Provide training, become a local champion on KM and KS and serve as best practice example
	Volunteer status sometimes restricts. Support is missing	
	Monitoring is not following formal processes	

# Thank You
