PRIMA Foundation Uptakes the Monitoring, Evaluation & Learning (MEL) Platform for Projects Knowledge Management

Monitoring, Evaluation & Learning (MEL) is an integrated and adaptable online platform for projects, activities and knowledge management, performance measurement, communication and dissemination of research findings. Its multifaceted and modular structure allows customization and remodelling to meet ever-changing demands. Given these qualities, MEL was adopted by the Partnership for Research and Innovation in the Mediterranean Area (PRIMA), joining three CGIAR CRPs and four Centers in the MEL Team.

Monitoring, Evaluation & Learning online platform logo, conceptualized and brainstormed by all MEL implementers.

19 participating states aimed at creating a competitive environment for solutions development in Research & Innovation (R&I) across the Mediterranean area.

Dr. Mohamed Wageih – PRIMA Secretariat Project Officer – to highlight the work of the Foundation to the readers, and to explain the role of MEL in supporting its components and partners as a multi-stakeholder knowledge management platform.
