Partnerships

An important project took place on 21st of April, 2018, in Copceac village, Stefan Voda district.

CPIU in collaboration with UNDP Moldova Project for Biodiversity Conservation, funded by GEF, the Copceac Town Hall and in partnership with the Ministry of Agriculture, Regional Development and Environment.

Participated in a massive planting of a forest belt in the village of Copceac - 5 hectares.

Over 350 volunteers were invited to the event.

For this project, in cooperation with "Parks of the Future" NGO, CPIU brought out two videos, first was a teaser for the upcoming event, and second as a summary for all activities, results and impact. This project was a success, had a great promotion on local media.

The outcomes of the IFAD funded SKiM project are achieved through the synergic efforts of the implementing partners and collaborating organizations.

Special thanks to the Governments of Moldova, Morocco, Sudan and all supporting Ministries and Representatives.
